

Reminder About Street Parking

We understand that residents occasionally have guests who need to park on the street. Short-term parking for a few hours is acceptable. However, habitual or overnight street parking is not allowed. For overnight guests, please use one of the designated parking pads throughout the neighborhood.

The Board is aware that ongoing street parking has become a concern and is actively working on long-term solutions. In the meantime, a new policy is being developed that may include towing for repeat violations.

Thank you for helping keep our streets clear and our neighborhood safe and accessible.
