

Irrigation Repair Request

Date _____

Street Number _____ ☐ Carefree Place ☐ Centurion Way

Name: _____ Best Contact # _____ Lot: _____

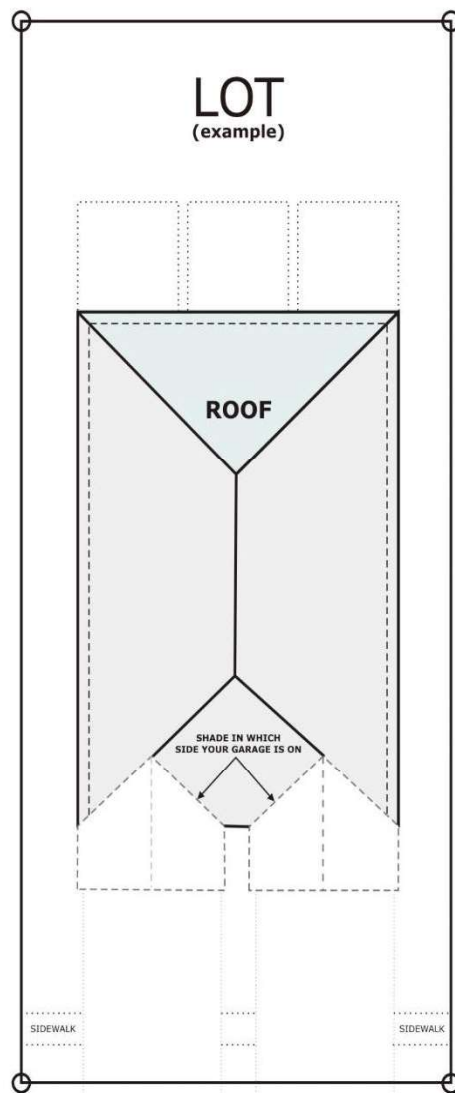

The irrigation system normally operates Monday, Wednesday and Saturday nights. This timing helps establish a good root system and improve the overall health of the grass. The HOA, working with our subcontractor, will make decisions on any changes.

Please do not use this form to request a schedule change for the system to run more frequently.

The diagram shown approximates your home and lot. It is not an exact drawing as each home can be different. You can rough in landscaping beds should the problem be in that area. The rear of the home has places where you might have a covered patio or screened in porch.

Use the diagram to illustrate sprinkler locations where you are having issues. Check below what best describes the issues you have and use the space to give as much detail as possible:

- ☐ Broken Sprinkler Heads
- ☐ Broken Pipe and/or Leak
- ☐ Incorrect Coverage Area
- ☐ Lack of Pressure
- ☐ Other (be specific)

Please email this form to edouglas@mulloyproperties.com or mail to the address below:
